## Professional Summary:

A dynamic and innovative full stack developer with a strong background in electronic design and consulting. I am passionate about creating ingenious solutions that enhance operational efficiency, and I am committed to delivering exceptional results in every project. With a proficiency in programming, web frameworks, and databases, I am well-suited to take on a challenging role in a dynamic organization.

---

## Experience:

Electronic Designer

Mechboards LTD / 2022-Present

- Spearheaded the in-house development of new products for the Mechboards' online store, resulting in a significant boost in revenue and heightened customer satisfaction.
- Orchestrated the organization of production supply chains for over 5000 units, ensuring impeccable quality control and timely delivery.
- Provided top-notch technical support to customers through online platforms, resulting in an impressive increase in customer retention and brand loyalty.
- Maintained website automations and server infrastructure to ensure accurate stock levels were maintained, resulting in a seamless inventory management system.

Consultant and Design Engineer

Freelance (EPKB.Design) / 2018 - Present

- Successfully cultivated a loyal and growing client base by skilfully acquiring new clients and fostering positive client relationships.
  - Provided expert consultation to clients on new and ongoing design projects, ensuring that their unique needs and requirements were met and exceeded.
  - Produced and presented innovative electronic designs for clients, resulting in improved product performance and enhanced user experience.
  - Leverage my extensive knowledge in manufacturing and logistics to liaise with agents and facilitate production, ensuring impeccable quality control and efficiency.
  - Oversaw all aspects of business operations and finances, ensuring profitability and sustainability.
- 

## Education:

Ba Geography with Business

University Of Nottingham

2021-2024

During my tenure at the University of Nottingham, I undertook a semester abroad in Malaysia. This opportunity allowed me to gain invaluable experience in understanding how needs and wants vary across different cultures and environments. This experience strengthened my appreciation for the nuances of cross-cultural communication and reinforced my knowledge in targeting and positioning, a critical aspect of my business degree.

A Levels – Maths (A\*), Further Maths (A\*), Geography (A), Politics (A)

Tudor Grange Academy Solihull Sixth Form

2019-2021

---
